REQUEST FOR BILLING DISCOUNT FORM

TOWN OF RIPLEY
WATER SEWER DEPARTMENT

This form does not guarantee any discount and is only a request.

The usage of water is any water that is distributed on purpose or accident. The cost to produce safe drinking water that meets or exceeds State and Federal Standards, is the same if it is used for everyday usage, pool filling, recreational usage, or accidental usage.

If you filled a Pool, you are eligible (not guaranteed) for a discount equal to the gallons filled. The discount will be on the sewer side of the bill since that water has not and will not be entering our sewer system. If it is determined that a pool has not been filled or that a pool is drained into the sewer system, that customer will lose eligibility to receive this discount for future requests.

For pool fill customers: please note the pool dimensions and shape along with the estimated gallons filled. Without this information, a discount may be denied.
